Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-6 are allowed because independent Claim 1 sets forth a cooling apparatus for an optical engine which includes a fan attached to an air duct body with a bottom side attached to the side of a lamp base for a light source, with a partition located within the air duct separating the air duct into a plurality of air ducts and an external air duct connected to one of the plurality of air ducts at the bottom opening of the air duct body and extending outside of the air duct body. The combination of a plurality of air ducts formed on the interior of the air duct body with an exterior air duct body attached thereto was not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Konuma et al is cited of interest for showing a cooling system for an optical engine.

Any questions regarding this Office action should be directed to Examiner Neils at (571) 272-2377.
